

2017 Modular and Offsite Construction Summit
& the 2nd International Symposium on
Industrialized Construction Technology

(2017 MOC & ISICT'17)

November 10-12, 2017

Shanghai, China

Tongji University, China

University of Alberta, Canada

Modular Building Institute, USA

2017 Modular and Offsite Construction Summit
& the 2nd International Symposium on
Industrialized Construction Technology

(2017 MOC & ISICT'17)

Shanghai, China

November 10-12, 2017

Tongji University

National Engineering Technology Research Center for

Prefabrication Construction in Civil Engineering

Shanghai, China

All Rights Reserved

Organized by

Tongji University National Engineering Technology Research Center for
Prefabrication Construction in Civil Engineering, China
University of Alberta, Canada
Modular Building Institute, USA

Hosted by

Shanghai Tongji Lvjian Prefabricated Structural Engineering Technology Co., Ltd., China

Supported by

Department of Structural Engineering, College of Civil Engineering, Tongji University, China
PinnacleLGS Inc., USA
FRAMECAD Ltd., New Zealand
Shanghai Baoye Group Corp., Ltd., China

Organizing Committee

Guoqiang Li, *Tongji University, China (Chairman)*

Yuanqi Li, *Tongji University, China*

Weichen Xue, *Tongji University, China*

Zhongguo Guang, *Tongji University, China*

Mohamed Al-Hussein, *University of Alberta, Canada*

Steven Williams, *Modular Building Institute, USA*

Guangbin Wang, *Tongji University, China*

Guangjun Liu, *Tongji University, China*

Jinhui Luo, *Tongji University, China*

Hongxian Li, *Deakin University, Australia*

Yanbo Wang, *Tongji University, China*

Academic Committee

Mohamed Al-Hussein, *University of Alberta, Canada (Chairman)*

Pamela Bell, *Prefab New Zealand, New Zealand*

Yiyi Chen, *Tongji University, China*

Zhihua Chen, *Tianjin University, China*

Jiemin Ding, *Tongji Architectural Design(Group)Co., Ltd., China*

Demin Feng, *FUJITA Corp, Japan*

Robert Hairstans, *Edinburgh Napier University, England*

Zhaoxin Hou, *China Metallurgical Group Corporation, China*

Yingbo Ji, *North China University of Technology, China*

Guoqiang Li, *Tongji University, China*

Jianzhong Li, *Tongji University, China*

Yungui Li, *China State Construction Engineering Corporation, China*

Yaozhi Luo, *Zhejiang University, China*

Jianguo Nie, *Tsinghua University, China*

Jinping Ou, *Harbin Institute of Technology, China*

Geoffrey Shen, *Hong Kong Polytechnic University, China*

Zuyan Shen, *Tongji University, China*

Quanke Su, *Administration buread of the Hong kong Zhuhai
-Macao Bridge Authority, China*

Guangbin Wang, *Tongji University, China*

Wei Wang, *Tongji University, China*

Gang Wu, *Southeast University, China*

Xuwen Xiao, *China State Construction Engineering, China*

Lianping Yang, *Shanghai Municipal Planning and Land Resources
Administration, China*

Haowen Ye, *Beijing University of Civil Engineering and
Architecture, China*

Haitao Yu, *Landmark Group of Companies, Canada*

Yong Yuan, *Tongji University, China*

Ailin Zhang, *China State Construction Engineering Corporation
Limited, China*

Xianzhong Zhao, *Tongji University, China*

Yongmin Bian, *Tongji University, China*

Yuxiang Chen, *University of Alberta, Canada*

Damien Crough, *Prefab Australia, Australia*

Shilin Dong, *Zhejiang University, China*

Carl Haas, *University of Waterloo, China*

Minjuan He, *Tongji University, China*

Sang Han, *Concordia University, Canada*

Jillene Lakevold, *All weather Windows, Canada*

Hongxian Li, *Deakin University, Australia*

Yuanqi Li, *Tongji University, China*

Mark Luther, *Deakin University, Australia*

Kejian Ma, *Guizhou University, China*

Moselhi Osama, *Concordia University, Canada*

Lauric Robert, *NRB Inc., Canada*

Jeff Robinson, *DIRTT Environmental Solutions Ltd., Canada*

Ryan Smith, *University of Utah, USA*

Xudong Sun, *Baosteel Construction System Integration
Co., Ltd., China*

Steven Williams, *Modular Building Institute, USA*

Yaowu Wang, *Harbin Institute of Technology, China*

Jianzhuang Xiao, *Tongji University, China*

Weichen Xue, *Tongji University, China*

Qiangyue Yang, *Hangxiao Steel Structure Co., Ltd., China*

Jihong Ye, *China University of Mining and Technology, China*

Yinquan Yu, *China Construction Technology Consulting
Co., Ltd., China*

Qingrui Yue, *China Metallurgical Group Corporation, China*

Qilin Zhang, *Tongji University, China*

Xuhong Zhou, *Chongqing University, China*

Contents

Plenary Session I

Construction Technology for Prefabricated House in Daiwa House Industry (Abstract)	
<i>Nobuo Yamashita</i>	1
Prefabrication in the Australian Context	
<i>Hong Xian Li, Mark Luther, Anthony Mills</i>	3
Building the Future in Wood—Off-site Construction & Beyond	
<i>Alexander Neuss</i>	11
Pinnacle—the Ultimate Solution for Modular Structure	
<i>Charley Zhu</i>	15

Plenary Session II

Seismic Isolation and Energy Dissipation Technology Used in Precast High Rise Buildings (Abstract)	
<i>Demin Feng</i>	17
Design and Construction of Precast Buildings	
<i>Yoshitaka SAKAI</i>	19
Rapid Assembly Construction Technology of Hong Kong-Zhuhai-Macao Bridge	
<i>Quanke Su</i>	24
Approch to the Quality Control Methods in Modular Construction	
- Take the extension project of Crowne Plaza in Changi Airport of Singapore as the example	
<i>LIN LIN</i>	31
Research Progress and Application on Technology of Prefabricated Construction at Tongji University	
<i>Guo Qiang LI</i>	43

Parallel Session I: Prefabricated Steel Buildings

Manufacturing of Modular Buildings: A Literature Review	
<i>Yi Yang, Wei Pan, Mi Pan</i>	55
Global Behaviour of High-rise Prefabricated Prefinished Volumetric Construction (PPVC) Building (Abstract)	
<i>Yie Sue CHUA, J Y Richard LIEW, Sze Dai PANG</i>	63
Balanced Value of Modularization Considering Integral Construction Process (Abstract)	
<i>Jaume Torres Bonet, Li Yuanqi</i>	65

Size Selection of Column-Supported Modular Steel Building and Its Architectural Adaptability Investigation (Abstract)	
<i>Ke Cao, Guo-qiang Li</i>	67
Research and Discussion over Seismic Performance of Modular Structure	
<i>Xu Zhong, Aoyi Chen, Zhihua Chen, Yujie Yu</i>	69
Design and Static Behavior of Beam-to-beam-tied Connection for Modular Steel Buildings	
<i>Jiadi Liu, Yang Liu, Zhihua Chen, Yujie Yu</i>	76
Planning of Modular Construction Manufacturing Plant Layouts Using Non-Linear Optimization	
<i>Chelsea Ritter, Mohamed Al-Hussein</i>	84
Testing and Numerical Analysis on Cold-formed Steel Shear Walls Using Corrugated Steel Sheathing	
<i>Wenyong Zhang, Yuanqi Li, Cheng Yu</i>	91
Innovative Slip-critical Blind Bolts and Connections for Prefabricated Steel and Composite Buildings	
<i>Wei Wang, Mingxiao Li, Yiyi Chen, Xiaogang Jian</i>	106
Prefabrication Technology for Highly Energy Efficient Homes in Canada	
<i>Haitao Yu, Reza Nasseri</i>	114

Parallel Session II: Prefabricated Concrete Buildings

Modelling and Analysis of Two Production Solutions for Precast Concrete Elements: A Petri-nets Approach	
<i>Mi Pan, Yi Yang, Wei Pan</i>	118
Prefabrication from a World Perspective	
<i>Hongxian Li</i>	127
Pull-out Tests of a New Hooked Steel-GFRP Composite Connector in Precast Concrete Sandwich Panels	
<i>Dongzhi Guan, Zhengxing Guo, Huanzhi Jiang, Dan Ju</i>	132
Application of Prefabricated Assembly Technology in Urban Tunnel Construction (in Chinese)	
<i>HUANG Shaowen</i>	140
Experimental Investigation on Torsional Behavior of Composite Beams Reinforced with Two-piece Enclosed Stirrups	
<i>Zhi Zhang, Qing Wang, Feng Lin</i>	148
Behaviour of Ultra-high Performance Fibre Reinforced Concrete Beam-Column Joint under Cyclic Loading	
<i>Charles K.S. Moy, Jun Xia, Chee Chin, Jianzhong Liu</i>	157
Damage Assessment of Semi-precast Slabs Using Impact-echo Method	
<i>Sun Zhenghua, Ma Junwei, Wei Xiaobin, Sun Huyue</i>	162

Parallel Session III: Prefabricated Timber Buildings

Key Technologies for Prefabricated Timber Buildings

Minjuan He, Jing Luo, Zheng Li169

Light-Wood-Construction and Energy Efficient Homes

Reza Nasser, Haitao Yu180

Comparing Cross Laminated Timber with Concrete and Steel: A Financial Analysis of two Buildings in Australia

Dylan S. Cazemier184

Complete Supply Chain of Prefabricated Homes Using Light-Wood-Frame Structure

Haitao Yu, Reza Nasser197

Construction Industrialization and IT Integration: How Tall Wood Buildings can Show the Right Path towards Construction 4.0

Conrad Boton, Daniel Forgues201

Parallel Session IV: Smart Construction to Prefabricated Buildings

Using Noisy RFID Data for Accurately Monitoring Panel Fabrication Assembly Line

Y. Wen, D. Ogunyemi, A. S. Bouferguene, M. S. Altaf, A. Bouferguene, M. Al-Hussein208

Application of Machine Learning Approach for Logistics Cost Estimation in Panelized Construction

SangJun Ahn, Mohammed Sadiq Altaf, SangUk Han, Mohamed Al-Hussein216

Assessment on the Carbon Efficiency in the Construction Stage: a Comparative Study between Prefabricated and Conventional Construction

Wenjun Gao, Chao Mao224

Energy Optimization in Modular Buildings Made from 3d Printing

S. Sepasgozar, T. Huang, C. Wang, F. Tahmasebinia232

A Novel Approach of Vertical City in Southern China Utilizing Construction Robotics, Open Building Principles, Modular Construction and Prefabrication

Rongbo Hu, Wen Pan, Thomas Bock240
