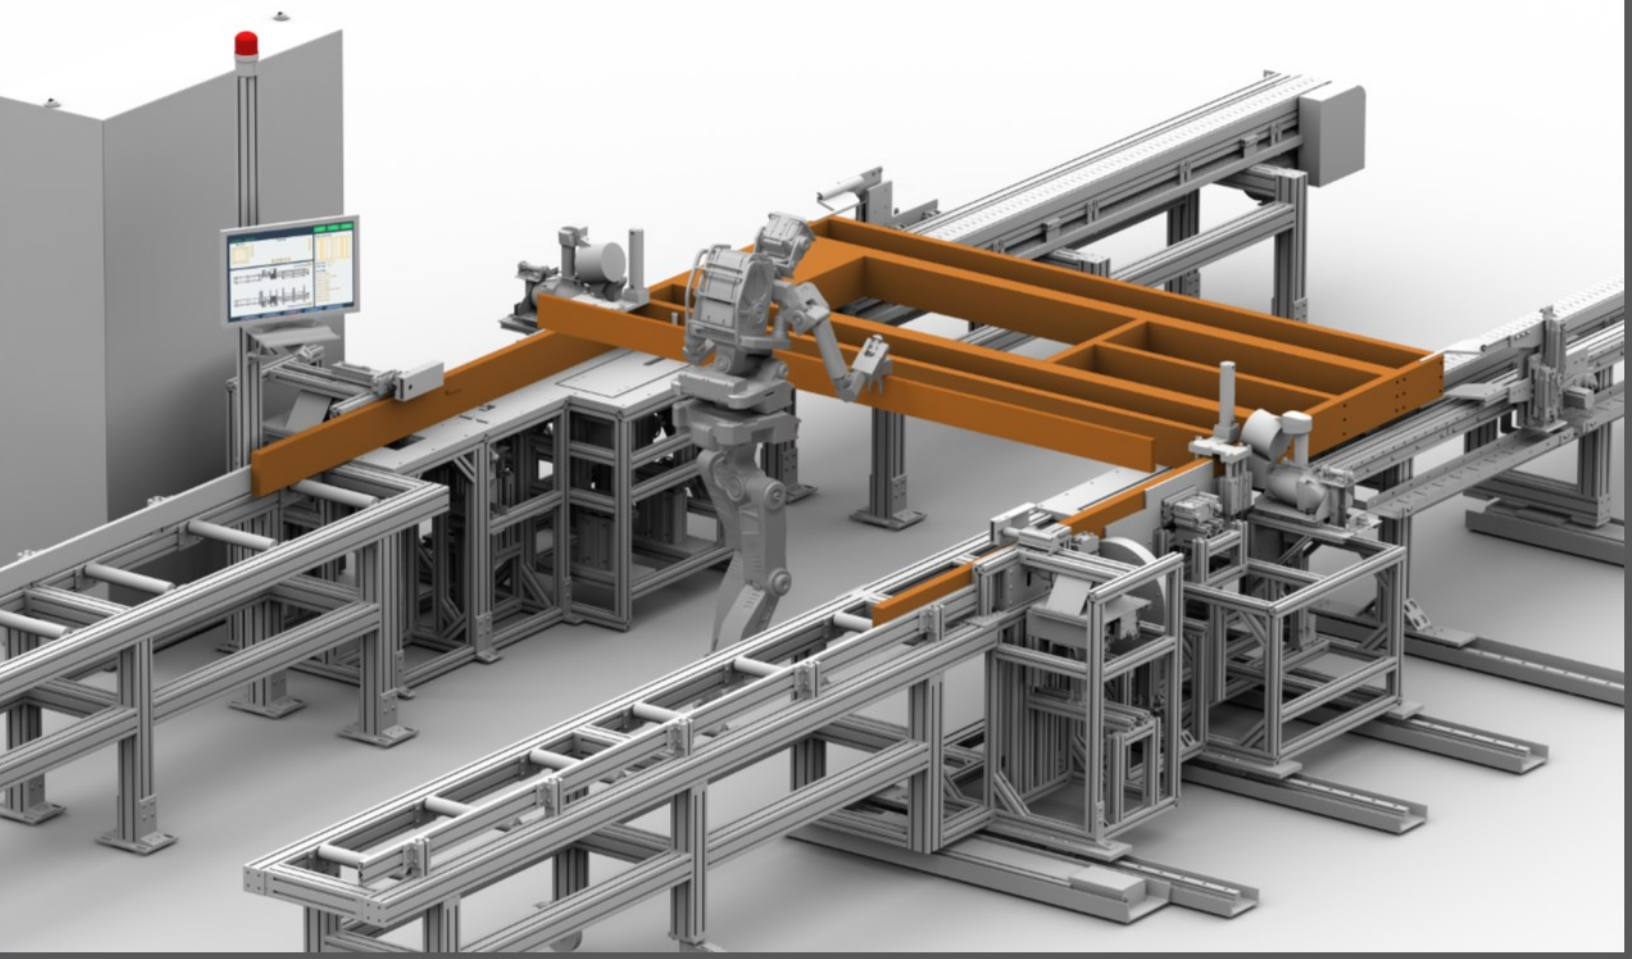
Proceedings of the
2019 Modular and Offsite Construction Summit

MODULAR AND OFFSITE
CONSTRUCTION SUMMIT

May 21-24, 2019 Fairmont Banff Springs Hotel Banff, AB, Canada



Editor

Dr. Mohamed Al-Hussein, University of Alberta

Copyright © University of Alberta Libraries, Edmonton, Alberta, Canada

ISSN 2562-5438

Organized by

University of Alberta (Edmonton, Alberta, Canada)

Hosted by

University of Alberta at the
Banff Fairmont Springs (Banff, Alberta, Canada)

Supported by

Western Economic Diversification Canada
Diversification de l'économie de l'Ouest Canada
Canada

Table of Contents

A Collaborative Scheme for DFX Techniques in Concurrent Engineering Mitigated with Total Design Activity Model 1-8
Anas Itani, Rafiq Ahmad, Mohamed Al-Hussein

Automatic Material Estimation by Translating BIM Data into ERP Readable Data for Panelized Residential Construction 9-16
Meng Wang, SangJun Ahn, Youyi Zhang, Mohammed Sadiq Altaf, Mohamed Al-Hussein, Yongsheng Ma

Research on Roles Transformation of Stakeholder in the Industry Chain of Industrialized Building in China Based on Niche Theory 17-24
Yuedan Liu, Chao Mao, Guiwen Liu, Fangyun Xie, Yan Fu

Data Analytics of Production Cycle Time for Offsite Construction Projects 25-32
Angat Pal Singh Bhatia, Sanghyeok Han, Osama Moselhi, Zhen Lei, Claudio Raimondi

Cost Evolution Throughout the Construction Value Chain 33-40
Zakaria Dakhli, Zoubeir Lafhaj

Smart Construction Site: Ontology of Information System Architecture 41-50
Zakaria Dakhli, Thomas Danel, Zoubeir Lafhaj

Canadian Mass Timber Demonstration Projects Initiatives 51-58
Mohammad Mohammad, Julie Tourrilhes, Richard Coxford, Miranda Williamson

An Optimized Prefabricated Raft Footing System for Houses on Shrink-Swell Soils: Preliminary Results 59-66
Bertrand Teodosio, Kasun Shanaka, Kristombu Baduge, Priyan Mendis

Highly Mechanical Performance of Laminated Veneer Lumber Induced by High Voltage Electrostatic Field 67-75
Qian He, Tianyi Zhan, Zehui Ju, Haiyang Zhang, Lu Hong, Zhiqiang Wang, Nicolas Brosse, Xiaoning Lu

Applying Virtual Reality to Improve the Construction Logistics of High-rise Modular Integrated Construction 76-83
Enoch H.L. Cheung, S. Thomas Ng

Structural Design and Modelling Method for the Post-tensioned CLT Shear Wall Structures 84-91
Minjuan He, Xiaofeng Sun, Zheng Li

Accessibility-Based Location Selection for Building Panelized Housing for Seniors 92-99
Yuan Chen, Xianfei Yin, Ahmed Bouferguene, Yuxuan Zhang, Mohamed Al-Hussein, Bingsheng Liu

A Knowledge-Based Approach Towards Automated Manufacturing-Centric BIM: Wood Frame Design and Modelling for Light-Frame Buildings 100-107
Mahmud Abushwereb, Hexu Liu, Mohamed Al-Hussein

Spatial Parameterization of Non-Semantic CAD Elements for Supporting Automated Disassembly Planning 108-115
Chris Rausch, Ben Sanchez, Carl Haas

Decision Support Tool for Enhancing the Economic Impact of Construction using Offsite Systems 116-123

Tsvetomila Duncheva, Robert Hairstans

Just-in-Time Delivery Requires Just-in-Time Production X2 – Sychronising Factory and Site for Successful Prefabrication 124-132
Alan Mossman

Open Source Timber Systems as a Democratic Tool for Construction 133-140
Ulrich Dangel

Automatic Selection Tool of Quality Control Specifications for Off-site Construction Manufacturing Products: A BIM-based Ontology Model Approach 141-148
Pablo Martinez, Rafiq Ahmad, Mohamed Al-Hussein

Lean as an Integrator of Modular Construction 149-156
Bruno Soares De Carvalho, Sergio Scheer

Environmental Benefits of Reusable Modular Mass Timber Construction for Residential use in Japan: an LCA Approach 157-164
Rafael Novais Passarelli

Integrating Computational Design to Improve the Design Workflow of Modular Construction 165-172
Tom Greenough, Matthew Smith, Aaron Mariash

A Research Roadmap for Off-Site Construction: Automation and Robotics 173-180
Jeremy Bowmaster, Jeff Rankin

The Value Proposition of RFID Technology in Tall Prefabricated Timber Buildings 181-188
Perry Forsythe, Alireza Ahmadian Fard Fini, Alireza Jalali Yazdi

Risks Identification and Allocation in the Supply Chain of Modular Integrated Construction (MiC) 189-197
Ibrahim Y. Wuni, Geoffrey Q.P. Shen

A Pilot Study of Identifying Execution Plan Differences for Accelerated Bridge Construction 198-205
Elina Prajapati, Jin Ouk Choi

Serviceability Performance of Timber Concrete Composite Floors 206-212
Thomas Tannert, Md Mehdi Ebadi, Adam Gerber

Lateral Performance of Cross-laminated Timber Shear Walls: Analytical and Numerical Investigations 213-218
Md Shahnewaz, Thomas Tannert, Marjan Popovski

Mass Timber Modular Construction: Developments in Oregon 219-226
Judith Sheine, Mark Donofrio, Mikhail Gershfeld

Mass Timber Productivity- the Significance of Reduction in Non-Value Add Activities during On-Site Installation Sequence. 227-234
Richard E. Brisland, Perry Forsythe, Alirezea Ahmadian Fard Fini

Calibrating CII RT283's Modularization Critical Success Factor Accomplishments 235-242
Jin Ouk Choi, James T. O'Connor, Young Hoon Kwak, Rajarshi Ghimire

The Legacies of Manufacturing and Factories of Industrialised Construction 243-250

Rachel Couper, Duncan Maxwell, Mathew Aitchison

Critical Review of the Principles of Design for Disassembly 251-258
Ernest Kissi, Mark Ansah, Johnson Ampofo, Emmanuel Boakye

Logistics Strategy for Industrialised House Building 259-267
Duncan Maxwell, Martin Rudberg, Rachel Couper, Mathew Aitchison

Transfer Learning Enabled Process Recognition for Module Installation of High-rise Modular Buildings 268-275
Zhiqian Zhang, Wei Pan, Zhen-Jie Zheng

An Efficiency-orientated Total Factor Productivity Measurement Model for Construction Projects 276-283
Wenting Zhan, Wei Pan

Smart Manufacturing Support to Product Platforms in Industrialized House Building 284-292
Djordje Popovic, Shamnath Thajudeen, Alexander Vestin

Drywall Waste Blocks: A Novel Masonry Material Utilizing Recycled Construction & Demolition Waste 293-300
David Drake, Fadil Zaky Ramadhan, Ping Fai Sze, Taiji Miyasaka

Simulation Based Approach for the Industrialization of a Cabinet Manufacturing Facility 301-308
Ryan Brown, Chelsea Ritter, Mohamed Al-Hussein

A Case Study for 3D Modeling Process Analysis based on BIM Log File 309-313
Nan Zhang, Yichen Tian, Mohamed Al-Hussein

Assessing the Environmental Implications of Industrialized Housing: a Systematic Literature Review 314-324
Firehiwot Kedir, Daniel Hall

Lean Construction Supply Chain: A Bibliometric Analysis of the Knowledge Base 325-332
Temidayo O. Osunsanmi, Ayodeji E. Oke, Clinton O. Aigbavboa

Development of a Design-Driven Parametric Mass Timber Construction System for Modular High-Rise Urban Housing 333-340
Oliver Lang, Cindy Wilson, Clayton Blackman, Ryan Gillespie, Oliver David Krieg, Shaique Uddin

Data Analytics Application for Non-Conformance Reports in a Cabinet Manufacturing Facility 341-348
Osama Mohsen, Yasser Mohamed, Mohamed Al-Hussein

Research Trends in Off-Site Construction Management: Review of Literature at the Process Level 349-356
Jun Young Jang, Chansik Lee, Jung In Kim, Tae Wan Kim

Case Study: Off-site manufacturing of EIFS Panelized Wall Assemblies to Gain Efficiency in Construction Sequencing 357-364
Scott P. Root, John Cribbs, Allan D. Chasey

Toward Community Generation: Energy Simulation and Performance Evaluation of Multi-family Solar PV Settings for Energy-efficient Homes in Edmonton, Canada 365-372
Hadia Awad, Mustafa Gül, Mohamed Al-Hussein

Evaluation of Risk Management Practice in the Nigeria Construction Industry 373-380
Moses C. Ugwu, Temidayo O. Osunsanmi, Clinton O. Aigbavboa

Decision-making for Cross-Laminated Timber Modular Construction Logistics Using Discrete Event Simulation 381-388
Bahar Abiri, Joseph Louis, Mariapaola Riggio

Appraisal of Strategy Adopted by Construction Professionals for Coping with Stress 389-396
Temidayo O. Osunsanmi, Ayodeji E. Oke, Clinton O. Aigbavboa

Strategies for a Safe Integration of Water-Bearing MEP Systems in Prefabricated CLT Room Modules 397-404
Michael Monsberger, Gerhard Schickhofer, Anna-Katharina Magg, Konstantin Ganster, Markus Neumayer, Thomas Bretterklieber, Christian Kaufmann

Cross-Laminated Timber Shear Walls in Balloon Construction: Seismic Performance of Steel Connections 405-412
Hossein Daneshvar, Jan Niederwestberg, Carla Dickof, Jean-Philippe Letarte, Ying Hei Chui

Disproportionate Collapse Mitigation in Tall Mass Timber Buildings 413-420
Hossein Daneshvar, Ying Hei Chui

Numerical Modelling Analysis of Angle Bracket Connections Used in Cross Laminated Timber Constructions 421-428
Saeed Rezvani, Lina Zhou

Cyclic Behavior of a Bamboo-Steel Hybrid Moment Frame with a Novel Energy Dissipation Connection 429-436
Zirui Huang, Dongsheng Huang, Yanhua Wang, Yan Feng

Development of Rigging System for Prefabricated Wood I-joist Floor Panels 437-445
Sigong Zhang, Ying Hei Chui, David Joo, Jean-Philippe Letarte, Luca Dalcastagne

Characterisation of the Lateral Resistance of Stapled Shear Walls 446-453
Roberto Aranda, Alexander Salenikovich, J. Daniel Dolan, Peter Dechent

Consequences of the BC Energy Step Code on Offsite Construction 454-461
Guido Wimmers, Alison Conroy

Effect of Loading Speed on the Mechanical Properties of Nail Joints 462-470
Shervin Shameli Derakshan, Lina Zhou, Chun Ni

Numerical and Experimental Study on Modular-Based Timber Structures 471-478
Sigurdur Ormarsson, Johan Vessby, Marie Johansson, Le Kua

RFID-Integrated Software Platform for Construction Materials Management 479-487
Safa Dardouri, Zakaria Dakhli, Andry Zaid Rabenantoandro, Zoubeir Lafhaj

Appraisal of the Challenges to Ensuring Occupational Health and Safety Compliance within the Nigerian Construction Industry 488-495
Charles I. Arum, Temidayo O. Osunsanmi, Clinton O. Aigbavboa

A Survey on Information Flow Tools in Alberta's Construction Industry 496-503
Mohammad Abdelghani, John Doucette, Rafiq Ahmad

Investigating Stakeholders' Perceptions of Feasibility and Implications of Modular Construction-Based Post-Disaster Reconstruction 504-513

Pedram Ghannad, Yong-Cheol Lee, Jin Ouk Choi

Strategies for Building Information Modelling Adoption in the South African Construction Industry 514-519
Tawakalitu Bisola Odubiyi, Clinton Aigbavboa, Wellington Thwala, Nendy Netshidane

Mass Timber in High-Rise Buildings: Modular Design and Construction; Permitting and Contracting Issues 520-527
Dalia H. Dorrah, Tamer E. El-Diraby

Bridging the Gap between Academic and Practice Quantity Surveying in Nigerian Construction Industry 528-535
Tawakalitu Bisola Odubiyi, Douglas Aghimien, Clinton Aigbavboa, Wellington Thwala

Investigation of Influencing Factors on Air Leakage of Canadian Dwellings 536-543
Maysoun Ismaiel, Yuxiang Chen

Site-specific Modular Design Optimization for High-rise Residential Buildings 544-551
Vincent J.L. Gan, K.T. Tse, Jack C.P. Cheng, Irene M.C. Lo, C.M. Chan

Developing an Analytical Solution that Mimics Simulation Modeling for Construction Planning: Earthwork Case 552-562
Waleed Shakeel, Ming Lu

Case Study: Program Management of Volume Modules 563-570
Gregory F. Starzyk

Parklet: A New Urban Platform for Emergent Forms of Communication and Social Interaction in the Cities 571-578
Mona Ghandi

Logistics Planning and Visualization of Modular Integrated Construction Projects Based on BIM-GIS Integration and Vehicle Routing Algorithm 579-586
Sanyuan Niu, Yi Yang, Wei Pan

Numerical Study of the Geometry Effect of Notched Connections in Mass Timber Panel-Concrete Composite Floors 587-596
Lei Zhang, Y H Chui
